

Community Engagement Team

WARWICK
THE UNIVERSITY OF WARWICK

Who are we?

Helen May Community Partnerships Officer

Jo Handford Community Partnerships Manager

Caroline Oakman Administrative Assistant

Jane Furze Director of Public Engagement

What do we do?

- First point of contact for residents, ward councillors & other groups
- University representative at ward forums, RA meetings
- Regular liaison with Council officers
- Hard copy community newsletter twice a year
- Community webpages: warwick.ac.uk/community
- We're your voice

Community webpages

warwick.ac.uk/community

- News stories
- Campus Development information
- Events calendar
- Things to do on campus
- How to report issues
- Contact details

The screenshot shows the Warwick University Community Engagement webpage. At the top, the Warwick logo is displayed with the text 'WARWICK THE UNIVERSITY OF WARWICK'. Below the logo is a search bar and a navigation menu with links for 'Family Days', 'Volunteers', 'Campus developments', 'Street Marshals', 'News and events', 'Things to do', 'Community issues', and 'Contact us'. The main content area features a large banner image of people at an event, with a text overlay that reads 'Warwick to host British Science Festival 2019'. Below the banner, there are three columns of content: 'Global achievement for local benefit' with a sub-image of a child with a globe, 'Latest News' with several news items and a 'More news' link, and 'Events' with a list of upcoming events and a 'More events' link. At the bottom, there are two smaller images: one of a modern building with the text 'Find out more about campus developments' and another of light bulbs with the text 'We want to hear from you'.

University of Warwick

Capital Plan Hybrid Application

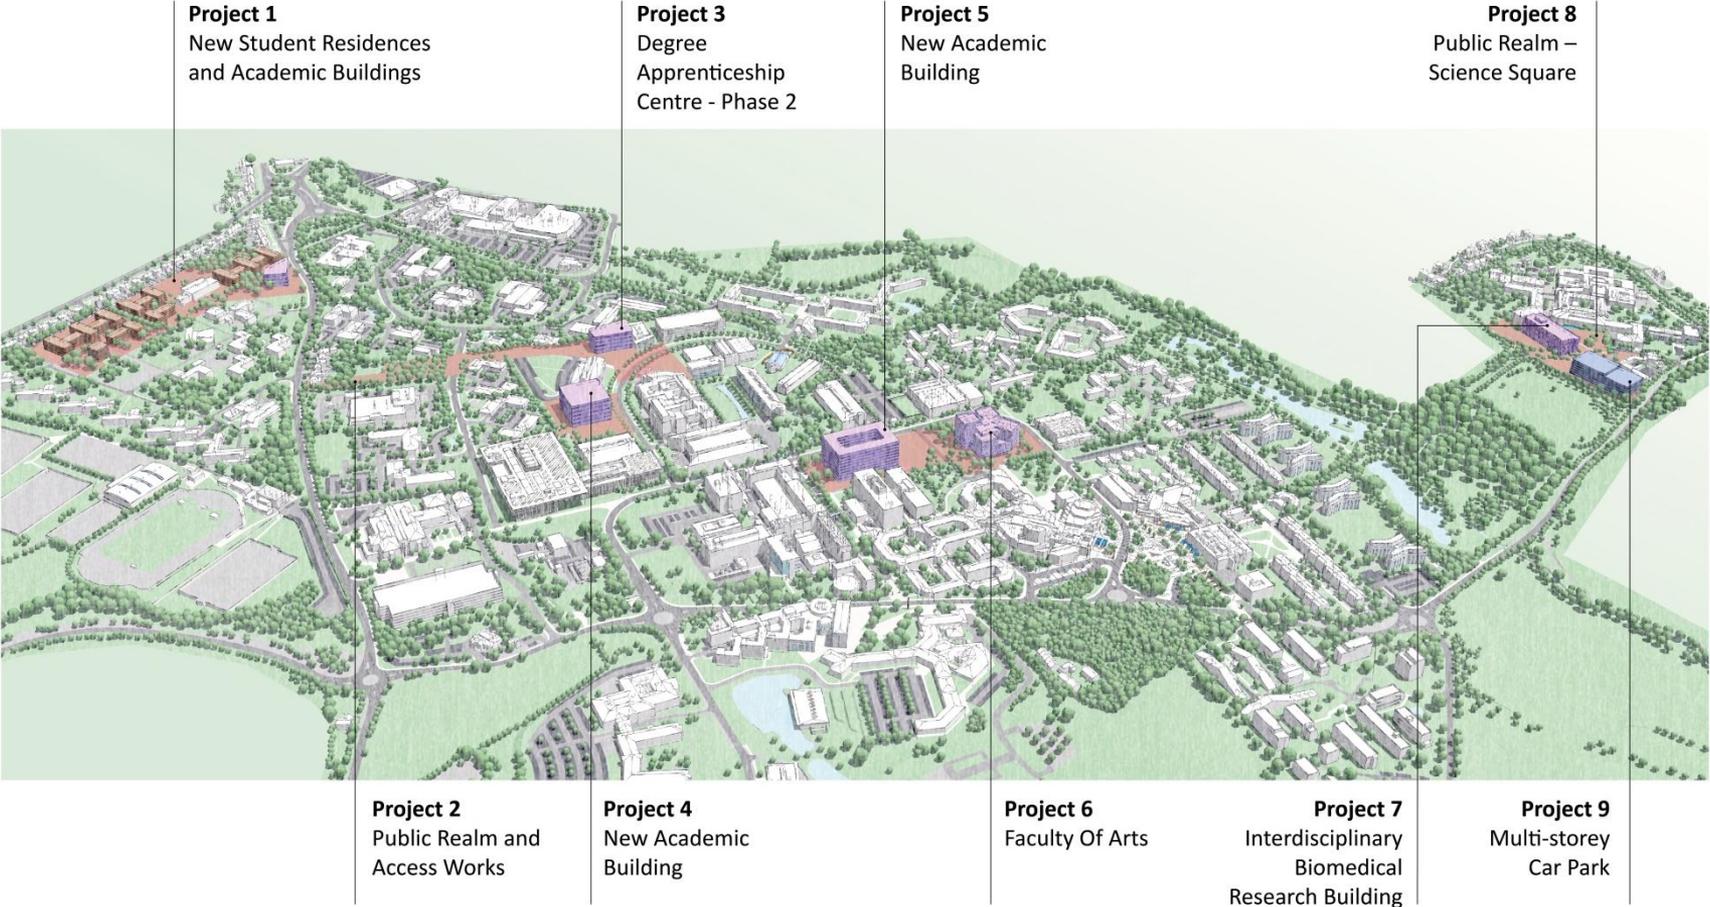

Briefing for Westwood Heath Residents' Association
September 2018

Introduction

- ▶ University has largely implemented the 2009 masterplan which
 - supported Warwick improving its campus, maintaining leading UK/global status and commitment to economic, social and cultural growth of region
 - delivered 30+ projects - new academic buildings, student residences, sports hub, National Automotive Innovation Centre
 - provided investment in new infrastructure – including new Energy Centre to extend the district heating system
- ▶ Construction activity continues with the Sport & Wellness hub, refurb of the Warwick Arts Centre, Cryfield Residences, Degree Apprenticeship Centre and Kirby Corner Car Park
- ▶ The University's Capital Plan has earmarked a number of projects either well defined or not over the next 5 years

Building Projects in the Hybrid Application

Why a hybrid application?

- ▶ Hybrid means both detailed and outline proposals form part of application - new projects at different stages of detailed design
- ▶ Most urgent: Faculty of Arts and Interdisciplinary Biomedical Research Building – would like to start on site early 2019
- ▶ Car parking demand requires early action to increase campus capacity and reduce cars parking in local roads
- ▶ Agreed with officers the benefits of combining all current projects and additional parking in one application
- ▶ Provides a longer term picture of potential development at the University for planning authorities and neighbouring communities

The Consultation Process

- ▶ Stakeholder and member/officer briefings in May
- ▶ Residents' Associations briefings 23 May (WHRA)
- ▶ Public exhibition held on 23 May
 - Leaflet to 7,700 households
 - Emails to community groups
 - Coventry Telegraph & BBC C&W
 - 80 people attended
- ▶ Plans on University website **warwick.ac.uk/community**
- ▶ Internal university consultation in May
- ▶ Emailed councillors and groups when application submitted (July)

Capital Plan Hybrid Application

- ▶ Application submitted to Coventry City Council in July (no proposals in Warwick District)
- ▶ Full details of 2 buildings – construction could start once conditions discharged
- ▶ Outline parameters for other 7 projects– will require Reserved Matters approval
- ▶ Permission to run for 5 years
- ▶ Seeking approval for additional 1,030 parking spaces and new Travel Plan targets for sustainable transport measures (both secured through S106 Agreement)

Parking Proposals

- ▶ 2009 Masterplan / S106 allows max 5,422 parking spaces on campus (Lynchgate & Kirby Corner multi-storeys within this limit assuming loss of CP7)
- ▶ S106 required Travel Plan which has been successful – increased public transport, car sharing, cycling
- ▶ University is operating close to parking capacity with NAIC reaching full occupancy next year
- ▶ Proposing additional 1,030 spaces as part of this application (including new Gibbet Hill multi-storey)
- ▶ Propose for 600 spaces to be in use by early 2019 – achieve by retaining temporary car parks when new Kirby Corner MSCP opens

Traffic Impacts & Mitigation

- ▶ Traffic Impact Assessment scope agreed with Highway Authorities. Modelling work completed, including on air quality – final report submitted
- ▶ Increased queuing at some junctions at peak hours by 2021
- ▶ University is offering to fund suitable mitigation measures including: new shuttle bus to Tile Hill station, cycle and pedestrian improvements to local communities, funding of parking restriction schemes *
- ▶ Renewed Travel Plan will set ambitious targets for sustainable transport

*These are subject to agreement being reached with Coventry City Council

The New Masterplan

- ▶ Embarking on new Masterplan with long term vision to 2030 and beyond
- ▶ Will take account of strategic transport infrastructure improvements eg link road, VLR, new rail station
- ▶ Series of public consultation sessions likely to be early 2019 – we'd like you to be part of this
- ▶ Once agreed by University, approval will be sought from the local planning authorities in a form to be agreed
- ▶ Masterplan could then replace/supersede the Capital Plan Hybrid Permission as it is implemented
